

SUCCESS PROFILE – W/W (SERVER)

The W/W Success Profile is a blueprint of what we expect from our Servers when it comes to owning the Guest dining experience – *from first contact to farewell.*

Use this profile to determine the following:

- Are our Servers meeting our standards of excellence?
- Where do we need to implement improvement plans?
- What recognition can we provide for excellence?
- Is the candidate “right for the role”?

When this role is performed well, we see that issues are owned early, service is effortless, and Guests feel welcomed, understood and personally cared for.

How It Relates: Team Member Cloak Theory

A W/W's superpower is the unique flair and individuality that they bring to each shift.

We never want to “cloak” ourselves or hide our personalities.

Treat Guests as you would in your own home. Good feelings are contagious. Have fun, and the Guests will have fun too!

Why Behind the What

The Server has the single greatest influence on:

- Guest satisfaction and intent to return
- Ticket average and add-on rate
- Brand perception

At Fridays, we like to recognize our top performers every chance we get! Certified W/Ws get a Server pin, depicted below. But we do not stop there! Our collection of pins goes beyond the ones you might earn here. Inquire with your manager today!
